List Reports Aggregate Revenue of \$185 Billion**

**Extreme Molding, LLC. Ranks No. 383
on the 2008 Inc. 5,000
With Three-Year Sales Growth of 789.5%!**

NEW YORK, August 20, 2008 – Inc. today ranked Extreme Molding, LLC. as #383 on its annual ranking of the 5,000 fastest-growing private companies in the country! The list is the most comprehensive look at the most important segment of the economy – America's independent-minded entrepreneurs. Taken as a whole, these companies represent the backbone of the U.S. economy.

“Our second annual Inc. 5000 continues the most ambitious project in business journalism,” said Inc. 5000 Project Manager Jim Melloan. “The Inc. 5000 gives an unrivalled portrait of young, underreported companies across all industries doing fascinating things with cutting-edge business models, as well as older companies that are still showing impressive growth.”

Extreme Molding designs, prototypes, and manufactures medical and biotech products from "extreme" materials. Lynn Momrow, Managing Partner and Co-Owner says, "We are unique in that we mold both thermoplastic and thermoset materials including silicone. In addition, we perform a number of secondary operations on parts we mold offering turnkey production for many of our customers." Extreme Molding has benefited from operating in a market that has not moved product development and manufacturing overseas. “This is due to fears of intellectual property violation, as well as material substitution that could result in product liability issues.” Managing Partner and Co-Owner, Joanne Moon says, “being a women-owned business has helped Extreme Molding grow, as the company is a preferred manufacturer of women's healthcare and pediatric products. We are also Ranked No. 6 in the Top 100 Manufacturing Companies.”

Extreme Molding, LLC. is a leading custom molder of challenging materials and complex designs with a focus on products for Medical, Biotechnology, Telecommunications and Consumer Markets. Located in Watervliet, New York, Extreme Molding takes on the tough jobs that other molders can't or don't want to do. Passionate about customer service and providing fully traceable US based manufacturing, Extreme Molding and its staff has extensive manufacturing experience. As a 100% Woman Owned Company founded in 2002, they are located within the qualified Empire Development Zone of NYS which translates to lower overhead costs for our operation and corresponding cost competitive pricing to our customers. Extreme Molding

operates with a strong entrepreneurial spirit grounded by technical competence and industry knowledge.

The 5000 companies that made the list reported aggregate revenue of \$185 billion and median three-year growth of 147 percent. Most important, the 2008 Inc. 5000 companies were engines of job growth, having created more than 826,033 jobs since those companies were founded. Complete results of the Inc. 5000, including company profiles and a list of the fastest-growing companies that can be sorted by industry and region can be found at www.inc5000.com.
